

OSLO CHAIR

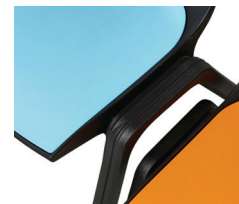

The OSLO chair is the new standard when it comes to mass public seating. The improved design, style, and elegance sets it apart, but its the high-impact fully moulded polypropylene fabrication that delivers all the benefits. A seat so sleek and comfortable, yet no moving parts, no steel to rust, no feet to fall off, no ganging hardware. It's a true ALL-IN-ONE chair.

Available in a multitude of colours, it stacks 12 high vertically. The strong one piece moulded construction makes them basically maintenance free.

Perfect for Colleges, Boarding Schools, Universities, Dining Halls, Lecture Rooms, Training Rooms, Churches and other public spaces.

Frame: Graphite/Black
